

The Minnesota Section of the Society of Women Engineers is pleased to announce our

Section and Corporate Partner Scholarships for Fall Semester 2020

We are offering **18 tuition-based scholarships for women students in engineering and computer science** at schools in **Minnesota, North Dakota and South Dakota**.

A copy of the application form for all scholarships offered through our SWE-MN program can be downloaded from our website, www.swe-mn.org. Instructions are included on the last page of the application; please follow them carefully. Application for any of the ten scholarships in our program is made on this single application form.

We encourage electronic submission of application materials. Electronically submitted applications must be sent by **midnight on March 15, 2020**; mailed applications must be postmarked no later than **March 15, 2020**.

All applications for these scholarships are judged by a committee of Minnesota SWE professionals who represent different fields of engineering. Applicants are judged on the basis of their potential to succeed in an engineering career; their communication skills; their involvement in extracurricular or community activities and leadership skills shown in those activities; their demonstrated work experience and success; and their academic success.

Recipients will be notified by May 1, with the scholarship monies issued for Fall Semester 2020. A list of recipients will be available on our website shortly after May 1. Recipients will be recognized at the Minnesota SWE Section awards banquet, date and location to be announced.

Please help us to bring these scholarships to the attention of all women engineering and computer science students in Minnesota, North Dakota, or South Dakota by passing this announcement along to any faculty, staff, counselors, and students who you know at these schools!

If you have questions about SWE or our scholarship program, please contact us at scholarships@swe-mn.org.

- **Banner Engineering Scholarship**
 - **One \$2,000** scholarship for a student of **mechanical or electrical engineering**.
 - Banner Engineering is the sensor market leader with the broadest line of products and solutions in the nation. For more information, visit www.bannerengineering.com.
- **Buhler Scholarship**
 - **One \$1,000** scholarship for a student of **biomedical, chemical, mechanical, electrical engineering, or computer science**.
 - The company holds globally leading market positions in technologies and methods for processing grain into flour and feed, as well as for the production of pasta and chocolate, in die casting, wet grinding and surface coating. The company's core technologies are in the areas of mechanical and thermal process engineering. For more information, visit <http://www.buhlergroup.com>.
- **Boston Scientific Scholarship**
 - **Two \$1,000** scholarship for a student of **biomedical, chemical, mechanical, electrical engineering, or computer science**.
 - Boston Scientific is a worldwide developer, manufacturer and marketer of medical devices who, for more than 25 years, has advanced the practice of less-invasive medicine by providing a broad and deep portfolio of innovative products, technologies and services. For more information, visit www.bostonscientific.com.

- **Hormel Foods Scholarship**
 - **One \$2,000** scholarships for students of *chemical, mechanical, electrical, civil, industrial engineering or industrial technology*.
 - Hormel Foods is a multinational manufacturer and marketer of high-quality, brand-name food and meat products for consumers throughout the world. For more information, visit www.hormelfoods.com.
- **Medtronic SWEnet Scholarship**
 - **Seven \$1,000** scholarship for a student of *aerospace/aeronautical, electrical, mechanical, or computer engineering, or computer science*.
 - SWEnet is a professional network of Society of Women Engineers members who work at Medtronic, the global leader in medical technology, working to change the face of chronic disease. These dedicated women have donated their time and talents to create this scholarship opportunity. For more information, visit www.medtronic.com.
- **SUEZ – Water Technologies & Solutions Scholarship**
 - **Four \$1,500** scholarships for a student of *Chemical engineering*.
 - As one of the nation’s leading environmental companies, SUEZ is proud to provide water and waste recycling services to over 7.5 million people in the United States and Canada. Their mission is to deliver these services safely and cost-effectively, while positively impacting local communities through our Ten Commitments to Social & Environmental Responsibility . For more information, visit <https://www.mysuezwater.com>.
- **The Minnesota Section Scholarship**
 - **Two \$1,250** scholarship for a full time woman student entering her junior or senior year of an accredited *engineering or computer science* program at schools in Minnesota, North Dakota, and South Dakota.
 - This scholarship is funded by an endowment of the Minnesota Section of SWE.

THANK YOU to our corporate partners who have made these scholarships possible!
